

EXPERIENCE COUNTS!

Dr. Andrew Wolin brings over 20 years of experience in using patient's own fat to sculpt and contour faces, breasts and bodies

NO ONE NOSE BETTER

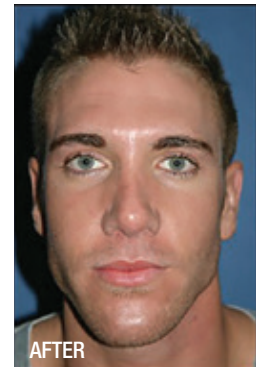

How many times have you looked at a photo of yourself and thought..." My eyes are my best feature... but my nose just doesn't fit my face! My nose just kinda gets in the way. Is there an easy way for me to address this problem without a trip to the hospital or undergoing a long anesthetic procedure"?

The answer is a resounding YES!

Dr Andrew Wolin, a surgeon with training in Plastic Surgery as well as ENT/Facial Plastic surgery, has been sculpting the nasal form for the past 30 years and has well over a thousand happy and satisfied nasal patients. Usually a short one hour office procedure is all that is needed to solve the problem.

Dr Wolin feels that it is an absolute requirement to analyze all the issues involved with a patient's nasal

form utilizing computerized imaging as well as free hand drawing analysis to solve every patient's individual problems. He feels that the ultimate goal of restoring facial harmony should satisfy the patient's wants and needs first, rather than many surgeon's approach of providing " the same nose for all patients".

" It is the patient's right as well as the surgeon's duty to listen to the patient and provide a plan to satisfy every individual patient's need. Only in that way, will the best outcome be reached and the melding of art and science be achieved" says Dr Wolin.

Dr Wolin is the director of the Wolin Plastic Surgery Center and has been practicing aesthetic surgery in Scottsdale for the last 28 years. He is certified by the American Board of Plastic Surgery and a member of the American Society of Aesthetic Plastic Surgeons. Dr. Wolin is located at 8415 North Pima Road, Suite 110, Scottsdale 85258. You can call 480.945.8440 or visit www.awolin.com to set up a consultation to learn more about these incredible procedures.
