

EXPERIENCE COUNTS!

With over 29 years of Plastic and Aesthetic Surgical experience, Dr Wolin and his staff not only Talk the Talk... they also Walk the Walk. Listen to what his patients have to say about their care and surgical results... (Verified independent interview)

Just a few months ago I got a good closeup view of my lips in the mirror. I was horrified. How could I possibly have gotten so many wrinkles in not only my lips but also in the areas surrounding my mouth? I never even smoked cigarettes..I immediately decided that I would try and remedy the situation. I went to a local spa where I was told that a temporary filler combined with a skin peel would solve my problems.

After undergoing multiple injections and peels, it was evident that the solution to my problem was not in a little jar of magical potions nor in a minuscule injection of temporary filler. The problem could only be solved by a combination of permanent volumizing as well as resurfacing my skin.

I had heard of Dr Wolin and his ability to use Fat Transfer techniques and Laser to re-volumize and smooth the wrinkles around the mouth and the face. He has been doing this procedure for the past 20 years and has hundreds of happy patients. With just a 45 minute procedure under local anesthetic, I was able to reclaim my lips and the entire area around my mouth.. My results were fantastic...natural and permanent.

My amazing story on video can be seen on Channel 3 TV, Caring for Arizona, by going to Dr Wolin's website at awolin.com/fat. Get a first hand look at how technology, when used by highly trained Board Certified Plastic Surgeons, can change your life...
